

Advantages of Sponsoring

The purpose of a sponsoring is helping someone or something. It's giving back, paying forward or simply doing for someone in a way at the time they couldn't do for themselves. That's where you can make a difference. By an act of kindness on your part you are helping build a brighter future for our local youths! You are helping kids in inner district areas break down barriers and commit to finding inner strength. Now tell me, how does that make you feel?!

Ways you can Build a stronger Us

Every time you look into our community, ask yourself:

Q: What is my place in our community?

A: To promote growth for our community through a product or experience you've provided.

Q: What will our community like to know about our business?

A: We're more than just a business, we're here to serve our community

Add Value to those words

Understanding that the youth of our community needs support and guidance from local business such as yourself. Help us build something that last!

“Obstacles don't have to stop you. If you run into a wall, don't turn around and give up. Figure out how to climb it, go through it or work around it..”

Commitment to health

Our program promotes physical and mental health. We offer daily workout routines they can do in and out of the program and teach the importance of maintaining a healthy diet through proper nutrition and education them on the benefits it will have on their lives.

Out of school healthy activity isn't always an option in these kids lives. That's why we continuously strive to maximizing the amount of time we have per session to educate them on an all around healthy lifestyle all while having fun!

Vision and Mission

My dream is that the kids in our community take the time to just be kids. Not worry about the chaos surrounding their lives or fear the daily violence that occurs on our local streets. They have but a moment to find bliss in something as simple as riding a bike.

I feel inspired by these kids to make a difference for the future of our community. With your assistance we can make this happen.

I was raised on the streets of Oakland. Proud to say I overcame obstacles no one expected me to, accomplished goals no one wanted me to, and raised a son on my own. Our youth needs positive motivation, they need people to stand up for them. I want to provide them the opportunity to be successful and to have pride in their community. We need you to help pave the way for a brighter tomorrow.

Character building

To teach positivity you must show positivity. That is the pavement for their future. Persevering is what I know best. Believe me when I say I've struggled, almost gave up on myself a few times. Knowing I was better then the situation and believing I deserved better was what got me through. I am just as committed to this program, my BMX team as I am to myself.

Strength in numbers

Our program has been blessed to have such wonderful volunteers. I'm sure you've heard the saying "*it takes a village*", well, it does. We've taken time out of our days, our families lives and packed in a busy schedule to see this program and all its participants though season after season. It's been worth it. Knowing these kids can count on us is more rewarding then I can explain. Imagine what

BMX Love

A local BMX Foundation aimed to give back to various charities picked Bay Area BMXers as the 2015 orignations to sponsor. Proceed for the event went to funding our after school program.

Prior to the Love Series event we were asked by KTVU Channel 2 news to do a segment on the upcoming event. Of course we did a playful BMX demonstration with the news crew, talk about our program and the upcoming event.

A great moment for the BMXers!
