Our Current Goal

Bay Area BMXers is a nonprofit organization and requests your donation support and/or sponsorship from your organization. With your assistance, we'll be able to compete in the BMX Grand Nationals aka "The Grands" aka "The Greatest Race on Earth". The race takes place at the end of November in Tulsa, OK.

Your contributions will help our racers compete for #1 Factory Team. Currently our team is in 2nd place. Last year in 2021 we competed for #1 Bike Shop Team, and we were able to clinch the #1 title. This year with our move into the Factory Division, not only are the stakes much higher but so is the competition. If our team can compete for the #1 spot it would be unheard of, something that has never been done before.

We would love for you to follow along as we chase after our goal. The race will be held November 24th – 27th, with the full schedule attached. You can also watch via YouTube on the USA BMX page.

Our Future

Upon acceptance of your donation or sponsorship, the organizers of the Bay Area BMXers will strive to make sure our relationship continues to be mutually beneficial during this time of our exciting expansion efforts into the Factory Division, and we look forward to successful results from this season. As the leader and coach of my team and racers, I am personally committed and fully dedicated to our success. I will continue to communicate the progress of our efforts through our website, which will be updated with pictures and videos.

Thank you in advance for your donation or sponsorship. Feel free to contact Howard Cato for detailed documents that will serve as a contract between us and your organization at the phone number or email provided above.
